

Create Your Own Midterm Scaffold

Lalaine S

Prof. Marco Deluca

Development Roadmap

Pre-development notes

- Create wireframes in Adobe XD and make sure to document colours, fonts and background colours in text file
- Label images
- Make comments on code before coding
- Follow clear, simple logic - do NOT overcomplicate
- Simplicity is key

Development map/thinking

- Set up html properly and connect reset.css, main.css and main.js
- Keep in mind the use of grid and flex box for building
